As you know, risky behavior among today's teens is more dangerous and life threatening than ever before. While parents should be the primary educators of their child concerning these decisions, many youth are seeking advice from their friends. Most students are not getting the education they need concerning healthy behavior and many parents are uncertain how to share this vital information with their child.

Your child's school will be providing this valuable education to your child through a program called "Choosing the Best Path." Reality Check, Inc. has been invited to teach your child how to stay physically and emotionally healthy through an eight day program that will cover the following information: Sex, Everybody's Talking about It, The Risks of STD's and HIV/AIDS, Teen Pregnancy and the myth of "Safe Sex", Pressures to be Sexually Active, Choosing the Best Path, Set It! The Need to for Boundaries, Say It! The Need to Speak Up and Show It! The Need to be Assertive.

We will be hosting a parent night and encourage you to attend
